

Year 3 & 4 Blackbirds

Computing Summer 1

Key Vocabulary –

Count - a controlled loop.

Procedure — a named code snippet that can be run multiple times.

Debug — the process of finding and correcting errors in your code.

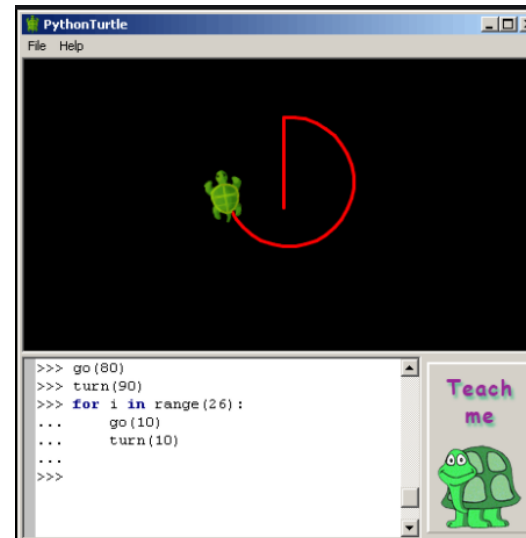

Program — the entire solution to the task, and an implementation of the algorithm as code.

Code snippet — this could be the same as a program; it can have several sets of commands in one program

Key Learning –

This half term our key learning will involve using the logo tool in order to create simple programming.

By the end of this unit we will be able to create short programmes and will be able to debug any errors.

Turtle Programming

Start of Unit Quiz

- 1. What is programming?*
- 2. How can we get our turtle to move forwards?*
- 3. How can we create a repeating pattern?*

End of Unit Quiz

- 1. What is programming?*
- 2. How can we get our turtle to move forwards?*
- 3. How can we create a repeating pattern?*
