

# Year 3 Parakeets

DT

Spring 2

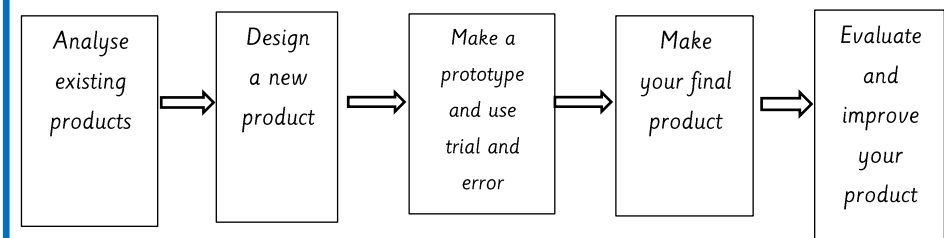

## Felt decorations

Felt decoration examples.

Key Vocabulary	Definition
<b>Aesthetic</b>	The beauty of something
<b>Design</b>	A plan or drawing produced to show the look and function or workings of a building, garment, or other object before it is made.
<b>Evaluation</b>	Making a judgement about the suitability of the project.
<b>Purpose</b>	The reason for which something is done or created or for which something exists.

### The design processes

### Back stitch:

#### Starting Off

To start your stitching, either tie a knot at the end of your thread or sew a few small stitches on the wrong side of the fabric.

**Step 1-** The first three steps are the same as you did for the running stitch. Begin the back stitch by pushing the threaded needle up through the fabric.

**Step 2-** Push the needle back down through the fabric near to where you came up and pull the thread down.

**Step 3-** Then, push your needle back up through the fabric, leaving a space from the previous stitch.

**Step 4-** Then, rather than sewing on as you did with running stitch, go back a space and fill in the gap, by sewing back down into the stitch

**Step 5-** Push your needle back up through the fabric, leaving a space from the previous stitch. Continue to repeat steps 4 and 5 for the following stitches.

**Finishing Off-** When you have finished sewing, you will need to finish off to stop your stitches from coming undone. Bring the needle to the wrong side of the fabric and secure the thread with two small stitches. On the last stitch, as you pull through, push the needle through the loop to create a knot. Cut off the threads.

Back Stitch

### Running stitch:

#### Starting Off

To start your stitching, either tie a knot at the end of your thread or sew a few small stitches on the wrong side of the fabric.

**Step 1-** Begin the running stitch by pushing the threaded needle up through the fabric.

**Step 2-** Push the needle back down through the fabric near to where you came up and pull the thread down.

**Step 3-** Push your needle back up through the fabric, leaving a space from the previous stitch. Then, push the needle back down through the fabric again to make a second stitch and continue to the end.

**Finishing Off-** When you have finished sewing, you will need to finish off to stop your stitches from coming undone. Bring the needle to the wrong side of the fabric and secure the thread with two small stitches. On the last stitch, as you pull through, push the needle through the loop to create a knot. Cut off the left-over threads.
