Spring 2

What makes a good friend?

Listening

When someone is listening it means they are giving the speaker their full attention and trying to understand what the other person means. Listening shows respect to those who are speaking.

Friendship

Friendship is a relationship of mutual affection between people. It is when people like each other and enjoy spending time and playing games together. There are lots of things that make a good friend including being kind, helpful, respectful, caring and listening to what your friends have to say. Sometimes a friend will do something which is unkind or hurtful but it is not right to be unkind back. It is important that you take the time to talk to your friend and tell them that they upset you. A good friend will say sorry and not be unkind again.

Key Vocabulary	Definition
Friendship	A relationship of mutual affection between people
Care	To show concern for someone
Kindness	A type of behaviour showing consideration for others
Listening	To take notice and act upon something that is said by others
Respect	A feeling of deep admiration for someone
Rules	A list that states the way things should be done
Share	To allow others to have the same as you
Loyalty	A strong feeling of support or allegiance
Trust	A strong belief in someone else
Relationships	The way in which people are connected
Helping	To make something easier for another person

Who cares for me and who do I care for?

Friends

Family

Pets

Neighbours

Teamwork

Teamwork is about working together with other people. Having good friends means that you are a team and when you work together as a team you are able to get more things done and have much more fun doing them. Teamwork takes lots of hard work as you might not agree with your friends but working together means that you can put both of your ideas together and you can all be happy.
