# Space Visual Arts

Still Life with Chocolate Pot, Henri Matisse (1900)

The Gleaners, Jean-François Millet (1857)

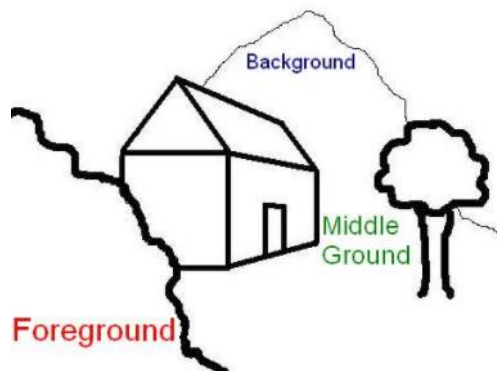

The Peasant Wedding Bruegel the Elder (1567)

Key Vocabulary	Definition
2d	Something 2d (2 dimensional) has only height and width – 2 dimensions. It is flat. In a drawing the object that is drawn has only height and width.
3d	Something 3d (3 dimensional) has height, width and depth – the three dimensions. You can touch it all the way around.
background	The part of a view that is furthest away from us in a picture.
depth	The measurement of something from front to back. This is one of the dimensions.
detail	A small part in a work of art which is clearly shown e.g. a blade of grass.
dimension	A measurement.
foreground	The part of a view that is closest to us in a picture.
foreshortening	Where an object or a person is shown to be bigger in the foreground and smaller in the background to create an illusion of space.
height	The measurement of something from top to bottom. This is one of the dimensions.
middle ground	Between the foreground and the background.
space	The distance within, around and between things in art.
width	The measurement of something from side to side. This is one of the dimensions.

### Foreground, Middle ground, Background

### 3-d Shapes

3-d shapes have length, height and width.
